

The Society for Industrial and Applied Mathematics
recognizes

HENRY WOLKOWICZ

for significant referee work on manuscripts submitted to its journals,
crossing a threshold that few attain, by reviewing 15 papers.

SIAM depends on the service of outstanding referees, and we are in your debt.

This certificate is presented with thanks for your help in assessing manuscripts for
publication. Your work helps maintain the quality and timeliness of our journals,
and your contribution is key to SIAM journals' peer-review process.
