- Joseph So, Edmonton, Alberta January-03-18 Herb Freedman I will miss you. My sincerest thanks to you for rescuing me from academic catastrophe. Your deeds are denumerable and of positive measure. Your name will forever remain in the annals of Applied Mathematics. Farewell to thee. All your graduate students salute you. Life is always a hostage to death. Rest in peace. Let the angels bless you and bear your soul gallantly into eternity.
- Frank Nani, Fayetteville, North Carolina December-11-17 I am so saddened to hear of the loss of your husband and father. Herb was always a good neighbour to my parents and I am proud to say that I currently live in the Freedman's home where they raised their family. My condolences.
- Bev Lawrence, Edmonton, Alberta December-04-17 I had the privilege and pleasure of being Herb's colleague and enjoying his friendship for almost fifty years. In addition to being a very nice and truly funny man, he was energetic, a prolific researcher and thesis supervisor. We will sadly miss him.
- Jim & Fidelma Muldowney, Edmonton November-27-17 Heartfelt condolences are extended to your family at this difficult time. Seek the love and support God provides to help you cope during this time - Psalms 29:11
November-26-17 Herb was a fantastic colleague during my (few) years at UofA 1980-85. It was incredible how much energy he had and always with a smile on his face. Herb definitely made working in the Math. Dept. a happy time/place. I wish the family all the best during this difficult time.

- Henry Wolkowicz, Waterloo, Ontario November-26-17 Herb was my teacher, mentor, and co-author. I also considered him a friend. He had amazing energy and besides his own important research contributions, he also mentored many others who have gone on to very successful careers. He also always had at least one joke to brighten up the day. I will miss him. My sincere condolences to Donna and his family.
